Instructions

- Cut diagonally along the length of the foam noodle to make four 'skittles' using a craft knife or bread knife
- With a marker pen, write the numbers 1-10 on the diagonal top of the skittle
- Cut one noodle with straight edges

- To Play:

1. Place the noodle skittles upright and together
 2. Roll the straight noodle (or a foam ball) towards the skittles
 3. Add together the numbers on the skittles the player knocks over
 4. The winner is the one who scores most
- Or
- 1) The winner is the first to 50 – no more or less
 - 2) The skittles could have fractions rather than numbers e.g. $\frac{1}{2}$
 $\frac{1}{4}$ written on them

Making: Cutting lines
