

RIDING LESSON TESTIMONY

My daughter really enjoys her riding lessons with Jacob. I have seen good progress in her riding abilities through his excellent instruction and patience. The price per lesson is a *great deal* for the personal instruction and attention she receives. I like that Jacob teaches more than just riding--he includes information about horse care and preparing for different riding disciplines. Occasionally he will give her some choices of what she wants to work on for that day, and she enjoys getting to choose.

If there were a 5-star rating scale here, Jacob would get 5 stars from us!

One happy mom!

ALL AROUND SATISFATION TESTIMONY

We have known and been working with Jacob for over four years. He is an outstanding trainer, Farrier, and teacher. He teaches my daughter horseback riding which also includes horse care and handling. Through his thorough explanations and direction, she has gained skill and confidence. He also trims our horse's hooves and does an excellent job with both horses that are familiar with him and those that he is working with for the first time. His gentle and patient approach puts both horses and people at ease. We have had the opportunity to watch as he has trained horses for JAKES Club and work with the same horses. They are gentle and a joy to work with due the training they have received from Jacob. My daughter and I highly recommend him in all of these areas!
